Education

2019

Data Science Diploma

Universidad Austral

2005

Systems Analyst

Universidad Abierta
Interamericana

Core Skills

- Backend
 - Node.js · NestJS · Express · REST APIs · Microservices · Kafka
- Frontend
 - React · TypeScript
- Cloud & DevOps
 - AWS (Certified) · Docker · CI/CD · Nginx
- Databases
 - PostgreSQL · MongoDB · Redis · Oracle

Language

English C1

Spanish

Esteban M. Piga Alessi

Systems Analyst & Fullstack Developer

Senior Fullstack Developer with 17+ years of experience building and shipping production-grade web applications.

Specialized in Node.js, NestJS, React, and AWS, with a proven track record across e-commerce, IAM systems, IoT, and data-intensive platforms.

Experienced working in distributed, English-speaking teams at global companies.

AWS Certified Cloud Practitioner.

Seeking remote freelance or contract opportunities with European and international clients.

Experience

GlobalLogic Latinoamerica

Jan 2022 - Present

Fullstack Developer

Working across multiple client engagements, with a strong focus on Node.js and React ecosystems. Delivered solutions ranging from e-commerce platforms and pricing tools to IAM systems and automated testing pipelines. Built and maintained a NextJS/NodeJS e-commerce app for a cosmetic brand, owning development, documentation, and code reviews. Developed a front-end solution from scratch for an IAM identity platform, following UI specs end-to-end. Maintained and customized a proprietary pricing tool built on Node.js and .NET, supporting ongoing business configuration needs. Improved test coverage for a sound studio client using Cypress, Jest, and mutation testing, alongside AWS Lambda maintenance. Technologies: Node.js · React · Next.js · TypeScript · CockroachDB · MongoDB · SQL Server · Docker · AWS

Newfold Digital

Oct 2021 - Dec 2021

Engineer III - ReactJS Developer

Responsible to provide internal application support and corrective maintaining.

Technologies: Cypress · React

Oct 2021 - Dec 2021

Engineer III

Provided internal application support and corrective maintenance across production systems. Managed database release cycles for retail environments, coordinating Oracle DB deployments with minimal downtime. Technologies: Oracle Database 12c · Oracle PL/SQL · SVN · GIT · Angular2+ · NodeJs · Jenkins

Groobits

Sep 2016 - Aug 2019

Co Founder

Co-founded a software company delivering IoT and Bluetooth-enabled solutions. Led development of a mobile app, backend, and admin dashboard for merchandise control including real-time photo capture with tracking data. Also provided consulting services maintaining NodeJS and ReactJS systems for external clients.

Technologies: Ionic · Angular2+ · ReactJs · NodeJs · .NET · Google Cloud · PostgreSQL

Tenaris

Sep 2015 - Sep 2016

Developer Analyst

Developed real-time data capture and transformation interfaces, with a focus on code performance analysis. Worked under Agile methodologies in a high-throughput data environment. Technologies: Oracle Database 12c · Oracle PL / SQL · SVN · Team Foundation Server (TFS) · Oracle Cloud Control.

○ **IBM**
Jun 2008 - Jun 2009
Technical Analyst

Contributed to a CRM enhancement project as part of the configuration team. Analyzed use cases, produced micro-design documentation, and built and maintained batch processes. Technologies: Oracle DB · Oracle PL / SQL · shell script · unix · IBM WebSphere Business Modeler · IBM Rational Software Architect.

○ **Santander Río Bank**
Apr 2007 - Apr 2008
Developer Analyst

Gathered and analyzed private banking requirements through direct user engagement. Resolved production incidents and maintained DataWarehouse processes in Unix/PL-SQL environments. Technologies: Oracle PL / SQL · VB.NET · VB6 · shell script · unix.

○ **Telefonica de Argentina S.A.**
Jan 2006 - Apr 2007
Developer Analyst

Delivered solutions for a commercial management system by resolving functional requirements and production incidents. Collaborated closely with business teams to ensure alignment between technical and operational needs.
Technologies: Oracle DB · Oracle PL / SQL · VB6 · Perl · shell script · unix.

Independent Projects

○ **Custom IAM Service - myiamhub.xyz**

OAuth 2.0 authentication service with Redis session management, Docker and Nginx orchestration. Built to production standards as a standalone open-source project.

○ **Distributed Supply Chain System**

Multi-branch inventory management system using Kafka for microservices communication, PostgreSQL and Redis. Designed to handle high-throughput stock operations across distributed nodes.

○ **Presupuestia - presupuestia.com**

SaaS for construction contractors to build itemized budgets (materials, labor, margins), share them via a public link, and collect deposits with payment validation.

Certifications

○ **AWS Certified Cloud Practitioner**

Aug 2023 - Jul 2029
